the United States, and that it is a gross stretch of authority for the President to assume the slightest law-making function. Have not treaties the force of lay? and does not the President negociate them, subject to the ratification of the Senate? Have not the regulations issued by the departments all the sanction of law? Are not the proclamations of the President and the proclamations of the President and the sanction of the President negociate them, subject to the mornid agent, as well as by the functions of the lungs, liver and spicen being impeded. Purify, therefore, the springs of life, the blood. Use the "Queen's Delight," the graph of the life, the blood. Use the "Queen's Delight," sident and the general orders of the the great blood remedy, and all morbid Commander-in-chief as binding upon eitizens and the courts also, as the light has cured many cases of contaminates of the Legislaure, until they are set aside by competent tribunals? It would be well for these gentlemen to remember that the President is not the first the President is not the court of the president is not the president in the president in the president is not the president in the remember that the President is not the mere cipher to which they would Nov 11 reduce him, and that the rights and the duties of the several departments of the Government have been clearly defined by the instrument for which they profess so much reverence, but the obligations of which they are so wing for America.
